Property Assessment Form

Summit Fire District has joined forces with Firewise a national program developed for wildfire prone areas. It encourages local solutions for wildfire safety by involving homeowners, community leaders, planners, developers, firefighters and others in the effort to protect people and property from the risk of wildfires.

One of the steps Summit Fire District has taken is to offer a free property inspection. In this inspection, we will determine the potential dangers of wildfire on your property and in your neighborhood. After the assessment, we will discuss our recommendations. Most of our recommendations are based off of national standards developed by Firewise. For more information about Firewise, please visit their website at www.firewise.org.

Please complete the form below and return it to our Administration Office at Stations 32. We will contact you to schedule an appointment. If you have any questions regarding Property Assessment, please feel free to contact us.
