Introduction

This policy and procedure handbook is intended to serve as the primary resource for all matters relative to the District's Fire Board. It is approved by the Fire Board of Directors to assist individual members in the conduct of their responsibilities as elected public officials.

No policy and procedure handbook can anticipate the full range of topics and situations that may arise. As new issues arise new policy and procedures are established and/or existing policy modified. While these policies and procedures are intended to provide clear and consistent direction, the Fire Board may, at its discretion, deviate from these policies and procedures if the current policy or procedure is found to be inappropriate. In such cases the decision should be documented, in an Open Meeting, and a determination made if the current policy and/or procedure requires modification.

It shall further be the policy of the Fire Board to authorize the Fire Chief to interpret and apply these policies and procedures within their written and stated intent, and to deviate from these policies and procedures in an emergency or to avoid a hardship for the District. It is the responsibility of the Fire Chief to seek clarification of any Fire Board policy and/or procedure issues directly with the Fire Board.

In order to continue being a useful reference source this handbook must be constantly reviewed and updated to reflect changes in service delivery needs, laws and regulations, and District operations.

Summit Fire and Medical District History

Summit Fire and Medical District has a rich history of working together to achieve the best possible service delivery to rural Flagstaff. That history dates back to 1973. Doney Park Fire District was the first predominantly career fire department established in the rural area of Flagstaff. Soon after in 1977 Timberline-Fernwood Fire District, which was predominantly a volunteer department, was built. The two departments merged into Summit Fire District in 2001. Together they advanced the fire district, providing advanced life support to over 10,000 residences in the rural areas of Flagstaff. In 2006 Summit Fire District started providing service to the Fort Valley area, increasing the service delivery area to 90 square miles and 12,000 residents. We also provide service delivery to three major highways in the area. In January, 2016 Summit Fire and Medical District entered into a two-year Intergovernmental Agreement (IGA) with the City of Flagstaff to share the services of the Fire Chief.

Mission and Vision Statement

Mission Statement: Ensuring exceptional customer service to the community, visitors and surrounding region.

Vision Statement: Dedicated to life safety and fire protection services

First Official Acts

At least one day prior to new Board members taking office, they are required to affirm and sign an Oath of Office and read through the Open Meeting Laws. Administration will also ask new Board Members to complete an information sheet which allows the District to add you to the Department Roster and enables us to know how to reach you when necessary. This information is also used to complete Department mandatory reporting requirements.

Orientation

New Board Members will be invited to go through an orientation session to give them a basic understanding of the Fire District. This orientation session will be administered by the Fire Chief/Deputy Chief and Administrative Officer. The following topics may be discussed:

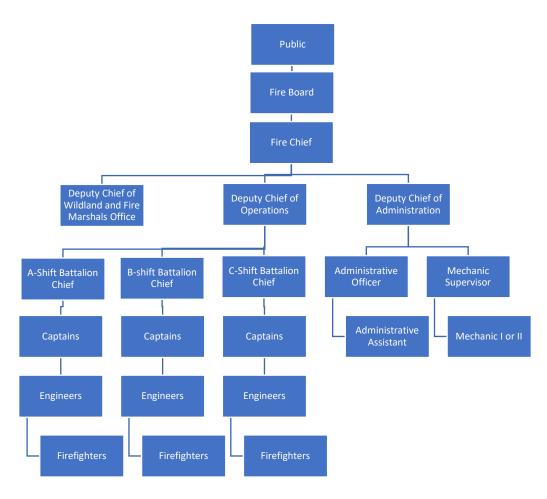

- Tour of stations, apparatus and meet staff
- Chain of command
- The role of a Fire Board Member
- Explanation of the Fire District finances, budget, and the roll a Board Member plays
- Description of response areas (district boundaries, off district, mutual aid)
- Explanation of Arizona Fire District Association (AFDA)

After the orientation, new Board members will be provided with a flash drive with the AFDA "Redbook" and current District budget. Board members are also required to attend professional development training provided by Arizona Fire District Association (AFDA) within one year of election or appointment to office. These statutory classes can either be taken on-line or at one of two conferences offered by AFDA

Organization Structure

The purpose of an organizational chart is to illustrate graphically the reporting relationships within an organization and to provide a thumbnail sketch of the division of labor between job classifications. The organizational chart also depicts the levels of management within an organization. The organizational structure should not be viewed as something that cannot be changed. The organization should view the structure as a method to promote efficient and effective operations. If changing circumstances indicate a different organizational structure would be more effective, it should be changed. There will be times when the Fire Board may have to communicate directly with the Administrative Officer.

Summit Fire and Medical District Organizational Chart

There may be times and situations when the Fire Board may need to bypass the flow of the organizational chart.

Code of Conduct

- Board Members should have a broad perspective and possess a
 willingness to search out effective solutions to complex problems.
 Being single issue focused or adopting a biased point of view is not in
 the best interest of the District.
- Board members should keep on task and not be unduly influenced by those who have more dominant personalities. Every Board member represents the interest of the District equally.
- Board members are obligated to operate within the parameters that the Board sets for itself.
- Board members who vote in opposition to the majority of the Board should not interpret it as a personal issue. In turn, all Board members need to realize that the will of the majority prevails.
- Board members always place the District's best interest above their own personal interests.
- The "prudent person" legal doctrine applies to individual Board members as well as the Board as a collective body. The level of Board competency will be compared to what a similar prudent Board or Board member should do.
- Board members are required to act and behave professionally when representing the District.
- Board members may not use their position, or information obtained as a Board member, for personal gain or for the financial benefit of themselves or members of their family.
- The focus of the Board is on policy, its implementation, and the finances of the District; Board members should not become involved in the day to day operations of the Department.

The person appointed to fill the vacated position will complete the unexpired term of the board member whose position was vacated. Upon completion of this term, a successor will be elected in accordance with Arizona Revised Statues. The law does not give specific direction on the process that should be used by a board to fill a vacancy.

The Fire Board may select the process it determines is in the best interest of SFMD to identify and screen applicants, and make appointments. The following process is generally followed:

Summit Fire and Medical District Fire Board Meeting

Action-7b

To: SFMD Fire Board

From: SFMD Administration

Date: August 16, 2023

Title: IGA extension option with the City of Flagstaff

Approve the IGA extension for one year with the option to add two

Recommended Action: additional one-year extensions

Action Summary: This allows for an updated IGA to be in place while continuing the

efforts of the JPA feasibility analysis.

Financial Impacts: No financial changes from current agreement

Relation to Goals: Create efficiencies that improve and sustain the capabilities of the

District, and Improve the resources of the District both human and

capital

Key Considerations: Current IGA has proven beneficial on multiple levels for both the

District and the City but ends in September. By continuing with oneyear extensions, we should have the input from the outside feasibility analysis to determine best options for both entities moving forward.

Additional Info: This would maintain stability for the District and keep things consistent

for at least one additional year while the feasibility analysis is

completed. The 30-day cancellation policy remains intact to give the

Board freedom to choose what's best at any given time.

Attachments: See IGA

Suggested Motion Recommend we approve the proposed Intergovernmental Agreement

between the District and the City of Flagstaff for a one-year extension, with the options to add additional one-year extensions up to three

years.
